November 2026

The Great Battery Science Competition!

In collaboration with Positive Materials and Brilliant Labs, we are inviting classrooms throughout the **Baie des Chaleurs region** to take part in a series of three challenges that help students learn and apply the science behind battery technologies. Students may enter individually or in teams of two. Teachers can register their classrooms to participate and select teams will be invited to represent their class at the Great Battery Science Competition! **There are AMAZING Prizes to be won including an electric scooter, drones and more! See details on STEM North!**

Let's Talk Careers!

chatterhigh

let's talk science

The Let's Talk Careers! competition encourages students to explore careers and post-secondary pathways, including opportunities in STEM and skilled trades, while earning chances to win prizes for themselves and their schools.

October 26 – December 4, 2026

Educators can register to receive competition details and a Getting Started Guide.
